Note Our Pricing Policy...

Our pricing policy is to be better than our competition. If you see a price that is not "On The Mark", please tell us so that our buyers can re-negotiate or re source the product.

If you have a competitor's price and we are not "On The Mark", please tell us and we will do our best to rectify this. In some situations a price is based on large volume purchases or is a monthly special from suppliers that our Company has not participated in.

*Note: We cannot beat every price, but we will keep our opposition honest!

All manufacturers' names, part numbers, trade marks and logos are only used for the convenience and ease of identification that they afford. All information, prices and brands were correct at time of printing and are subject to change. **E&OE**

A FEW WORDS FROM THE MANAGING DIRECTOR...

With the new financial year fast approaching, it is time to supply the latest edition of A Man's Toyshop Catalogue. Yet again, these 124 pages have a vast array of new & innovative products for our customer base.

A Man's Toyshop stocks approximately 22,000 product lines on the shelf so any visit you make to either of the shops in Rockhampton or Townsville, you can rest assured that you can find what you are looking for.

You do not have to call at one of our shops as products are listed on line at our website - www.amanstoyshop.com. So browse the product range on line and buy online or give our helpful phone room team a call for any assistance you may need.

Remember to contact us at either of our outlets should you be looking for products that are not listed or cannot be located elsewhere as our team will do all they can to assist you with your enquiries. Should you, our valued customer, have a problem, or you are dissatisfied with our service, then please don't hesitate to contact me about it by writing to: PO Box 8279, Allenstown, QLD 4700 or by phoning (07) 4930 8000.

Ross Mylrea

Ross Mylrea
Managing Director

By solving the little problems they don't escalate to larger ones.

IMPORTANT CUSTOMER NOTICE

PRICES & ILLUSTRATIONS
 SUBJECT TO CHANGE

We advise all of our customers to confirm the product is as illustrated at time of purchase. Photos & illustrations are subject to change & are current at the time of print, as supplied to us by the manufacturers or suppliers.

We reserve the right to correct any typographical errors. We endeavour to maintain pricing in this catalogue for its duration, but the current economic situation may be influential in any price changes that may be passed onto us by our suppliers.

Current catalogue prices supercede all previous advertised prices & are subject to change without notice.

WHEEL BALANCERS

WHEEL BALANCER WITH ELECTROMAGNETIC CLUTCH BRAKE

- *0.25Kw/1/3hp motor
- *Max. Rim diameter: 1000mm
- *Balancing speed: 200rpm
- *Max. Wheel weight: 65kg
- *Warranty: 1 years
- *Rim diameter: 10"-24"
- *Rim width: 1.5"-20"
- *Max wheel diameter: 1000mm

14059

\$1399

Feature:

- 1) Wheel balancer with its own intellectual property.
- 2) With dyn/sat and various balancing mode and motor balancing mode.
- 3) Customize the balance operation increases the working efficiency.
- 4) With various creative data input modes, it can easily display the data increase and decrease by rotating the tyre.
- 5 Self calibration is easy to operate
- 6) Optional equipment with motor adaptor and motor balancing mode.
- 7) Simple display and big capacity of weight container.
- 8) Resistance to scratch and corrosion

- *Power: 0.25Kw
- *Max. Rim diameter: 711mm
- *Max. Rim width: 508mm
- *Power supply: 110v/230v
- *Balancing speed: 140rpm
- *Max. Wheel weight: 75kg
- *Warranty: 1 years
- *Rim diameter: 1"-28"

- 1) It is used to mount/dismount the drop center rim/tubeless wheel/wheel with ring of the passenger car/truck/agriculture vehicle/industrial vehicle.
- 2) The tool arm automatically moves horizontally and vertically.
- 3) Tool can automatically rotate. The spindle on the mounting head, uses the rolling bearing design, it can be used for tires with huge resistance.
- 4) It is equipped with the hydraulic driven carriage making the tyre move on the tyre changer without man power.
- 5) The small and portable console is very convenient to observe from different views avoiding the improper use in the process of operation.
- 6) Dual speed main shaft motor improves the working efficiency.
- 7) There is a safety protection switch on the lifting arm.
